It is a pleasure indeed to recommend your seeds to other gardeners. We have been using your garden and flower seeds for several years, and even during the years of the drouth, our garden was the cause of much favorable comment from our friends. Your seeds come up well and the peas especially—which is our favorite vegetable—bear abundantly.

O & M LAWN GRASS MIXTURES

O & M Forest City Per Lb. **30c** 5 Lbs. **\$ 1.25**

Contains the proper grasses proportionately blended to make a good quick growing lawn and at the same time insuring a lasting quality.

We do not believe you can find a better mixture at such a reasonable price. A trial order will convince the most critical trade.

O & M Superior Per Lb. **35c** 5 Lbs. **\$ 1.50**

A higher priced mixture than Forest City, but worth it. This mixture contains valuable Domestic and Imported grasses.

Superior mixture contains only high grade, well cleaned grasses and has a high percentage of purity.

O & M Shadee Per Lb. **35c** 5 Lbs. **\$ 1.50**

This is a carefully selected and proportioned mixture of grasses that will grow in the shade of trees, in areaways, between buildings and in other places that get little or no sunshine and where ordinary grasses will not thrive.

Wh. Dutch Clover Per Lb. **55c** 5 Lbs. **\$ 2.50**

Used in some lawn mixtures and is very desirable in building up old lawns.

WHAT OTHERS SAY ABOUT O & M SEED

The seeds you sent me are very nice. I am well pleased with them and should I be needing any more in the future, I will get in touch with you. J. C. McGEE, Sussex-Co, Delaware

The grass seed which you made up especially for my lawn has been quite satisfactory. Our lawn looked better this year than for a long time. FRED N. SMITH, St. Joseph-Co, Ind.

The seed which you sent me certainly did fine.

CHAS. A. OGLE, Carroll County, Maryland.

O & M FARM SEEDS

Owing to market changes, we are not pricing most of the field seeds. We assure you that your business will be taken care of and given our lowest price on date order is received.

Some items of field seeds are very scarce and we anticipate being sold out before end of season, therefore we must make all quotations subject to being unsold and market changes.

GRASSES

Kentucky Blue Grass

The basis of all good lawn grass mixtures as well as pasture mixtures. We have some good seed this year as usual and the price is right.

Per 100 Pounds **\$16.00**

Less than 100 lbs. 20c per lb.

Fancy Red Top

Red Top is becoming more popular each year for use in lawn and pasture mixtures. Let us suggest a few pounds of O & M Red Top, either for your lawn or pasture.

Per 100 Pounds **\$15.00**

Less than 100 lbs. 20c per lb.

O & M PASTURE MIXTURE

O & M Cornell pasture mixture contains seven varieties of seed and each has its place in a pasture mixture. It should be sown at the rate of 30 pounds per acre and should show excellent results. Try this and be convinced.

Less than 100 lbs. 18c per lb.

Per 100 Lbs. **\$15.95**

Astoria Bent Grass

Many of our customers are using this seed and they are getting good results. It takes more time and money to get a good Bent lawn, but once established, it fully repays for the effort.

Per Lb. **\$1.25**

Poa Trivialis

This grass is used extensively in lawn mixtures, especially in shady mixtures. Its natural habitat is under trees and other places that get little sunshine. For bare spots under shrubbery use Poa Trivialis.

Per Lb. **60c**

SUDAN

More sudan is being sown each year. It must not be sown until warm weather. A good hay maker and is ideal for moist soil.

Per 100 Lbs. **\$6.00**

SEED OATS

**O & M
SWEDISH TYPE**

They can be sown one-half bushel per acre less than common seed oats which results in reduced cost. Many report yields of 70 to 90 bushels per acre. They produce strong, healthy, vigorous plants that stool heavily and result in a larger crop of big, heavy grain, thin shuck and stiff straw that seldom lodges.

No complaint of smut or weed seeds has ever been received from buyers.

**O & M
WHITE STAR**

We imported the parent stock direct from Sweden and it has proven to be the best variety we have ever produced. It is an earlier oat than the Victor.

**O & M
HEAVYWEIGHT**

Grown in the Northwest. Beautiful white color. Test 40-42 pounds per bushel. Stiff straw. Big yielding.

HYBRID

In the last few years, corn hybrids have made marked progress and are fast becoming popular with farmers. Adapted hybrids excell in yield per acre, are more resistant to disease, have more uniform stalks and ears, and are much more resistant to wind because of their superior root systems.

We have recently issued a pamphlet "A MESSAGE TO CORN GROWERS ON HYBRID SEED CORN." They are free for the asking. At the time of going to press, it appears we will have a limited supply of the following from 1937 crop—

BUILD UP YOUR SOIL

Inoculate Your Legumes With NITRAGIN

Make the most of your seed, soil and labor. Don't let legumes rob your soil! If not inoculated they steal fertility—when inoculated with NITRAGIN they draw fertility from the air . . . grow faster, heavier . . . make more and richer feed . . . return more nitrogen and organic matter to the soil . . . protect and build up the soil.

NEW LOW PRICES

With 1938 prices reduced to popular prices of ordinary brands, made possible because of increased production and efficiency, you can now afford to inoculate all of your legumes with NITRAGIN.

ORIGINAL — APPROVED — TESTED

NITRAGIN is the original tested inoculant . . . bred up by scientific selection and proved by farmers for 39 years.

Every can bears the annual Expiration date for your Protection and is branded with the number of Billions of efficient bacteria packed into each can.

NITRAGIN is an approved moist soil culture—easy to apply. Directions on every can. Its high quality make NITRAGIN the cheapest legume crop insurance money can buy.
